SUMMARY

I'm a software developer with a background study in Electrical and Electronics Engineering, currently working as an intern frontend developer at DexP2P working on front-end page and features. I'm have strong desire for continuous learning and building. Currently learning TypeScript and other latest technologies.

I like to contribute to open-source, build an exciting application that help people with their everyday lives.

I am always open to new ideas and opportunities. I can't wait to see what the future holds.
